How does an automated photography studio work?

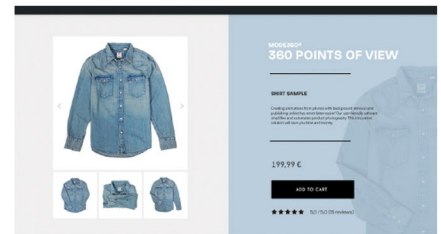

Insert

Place the product or composition of products on large worktop area.

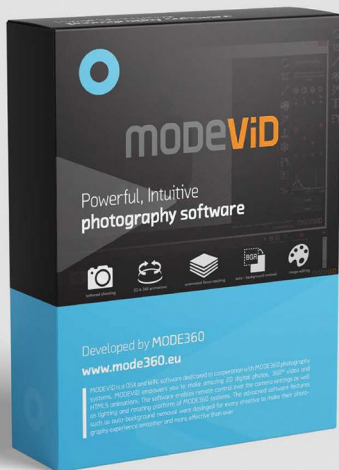

Capture

MODEVID software allows to control all camera and light settings. The system automatically cuts the background from the image and saves it in the selected JPEG or PNG format.

Publish

The end result does not require retouching and allows to quickly upload the photo on the sales platform, website or social media.

With MODEViD you will get

- Intuitive and user-friendly interface
- Advanced image post processing software
- Auto background removal
- Super Focus (focus stacking)
- LEDs control with adjustable light intensity
- Camera control with adjustable settings
- Ability to create settings templates
- 'Live' picture editing

MODEViEW Cloud features

Easy and fast publishing on websites, sales platforms and social media:

- Photo gallery
- QR code, MP4

Together with buying our system for automatic product photography you receive a free training in the use of the device and full support with the implementation. We also offer dedicated individual training.
